Summary
CONVENTION OF 1906
United States and Mexico
CONVENTION OF 1906

Provides for the equitable distribution of the waters of the Rio Grande for irrigation purposes between the United States and Mexico near El Paso-Juarez.

United States to deliver 60,000 acre-ft/year.

In cases of extraordinary drought, water deliveries to both countries are reduced by the same percentage.

The treaty does not require the United States to pay back any deficit incurred with a reduced allocation.
