

OFFICE OF THE COMMISSIONER
UNITED STATES SECTION

INTERNATIONAL BOUNDARY AND WATER COMMISSION
UNITED STATES AND MEXICO

April 1, 2018

**A notice to the general public, all owners, lessees, licensees, and users of lands
along the Rio Grande, between the American Diversion Dam and
Little Box Canyon, El Paso and Hudspeth Counties, Texas**

The general public, owners, lessees, and users of lands on the United States banks of the Rio Grande between American Diversion Dam and Little Box Canyon are hereby notified that lands along the banks of the river between the channel and levees (floodplains), depending upon their elevation, are subject to periodic flooding from local tributary inflows and by flood conditions of the Rio Grande. This notice is given as a public service to advise and inform you that human life, property, livestock, and other activities, existing or proposed, may be subject to flood damage, and are maintained or undertaken at your own risk.

The United States Section, International Boundary and Water Commission (USIBWC) maintains the Rio Grande Rectification Project to provide flood protection for urban, suburban and agricultural lands, and stabilize the international boundary line. Please be advised that during flood conditions and/or localized heavy rainfall/runoff events, the Rio Grande will unavoidably overflow its river channel and may adversely impact interests along its banks. Please refer to your local National Weather Service office for flood information during these events.

In order to protect life and property and to avoid potential obstruction or deflection of flows within the Rio Grande floodplain, the general public, owners, lessees, and users of land along the Rio Grande are advised for their own safety and for security of their properties to contact your County Officials (El Paso County or Hudspeth County) and the USIBWC, 2616 West Paisano Drive, El Paso, Texas 79922, telephone number (915) 351-1030, before making any use of the lands or constructing improvements on the lands along the river.

Sincerely,

Edward Drusina, P.E.
Commissioner
