

OFFICE OF THE COMMISSIONER
UNITED STATES SECTION

INTERNATIONAL BOUNDARY AND WATER COMMISSION
UNITED STATES AND MEXICO

April 1, 2021

A Notice to the General Public, Owners, Lessees, and Users
of Lands Along the Rio Grande

The general public, owners, lessees, and users of lands on the United States bank of the Rio Grande are hereby notified that lands along the bank of the river (floodplain), depending upon their elevation, are subject to periodic flooding from local tributary inflows. This notice is given as a public service to advise and inform you that human life, property, livestock, and other activities, existing or proposed, may be subject to flood damage, and are maintained or undertaken at your own risk.

The International Boundary and Water Commission (IBWC) maintains the Presidio Levee Project to provide flood protection to urban, suburban and agricultural lands, and stabilize the international boundary. Please be advised that during localized heavy rainfall, the Rio Grande will unavoidably overflow its river channel and may adversely impact interests along its banks. Please refer to your local National Weather Service office for flood information during these events.

To protect life and property and to avoid potential obstruction or deflection of flows within the Rio Grande floodplain, the general public, owners, lessees, and users of land along the Rio Grande are advised for their own safety and for security of their properties to contact their county officials and the United States Section, IBWC, 110 South Dod Avenue, P.O. Box 848, Presidio, TX 79845, telephone number, (432) 229-3751, before making any use of the lands or constructing improvements on the lands along the river.

Sincerely,

Daniel Avila, P.E.
Acting Commissioner
